

PROJECT

Retail Store #4582

CLIENT

ABC Lighting Co.

LOCATION

Miami, FL

VISIT DATE

Sep 18, 2026

VISIT OBJECTIVE

Record client-requested dimensions for lighting coordination and document visible existing conditions, ceiling heights and selected clearances.

FIELD SUMMARY

The requested site visit is documented below. Eight illustrative measurements are recorded on page 2, with selected photo references and two items flagged for client review. No determination of installation readiness is made.

Items for client review

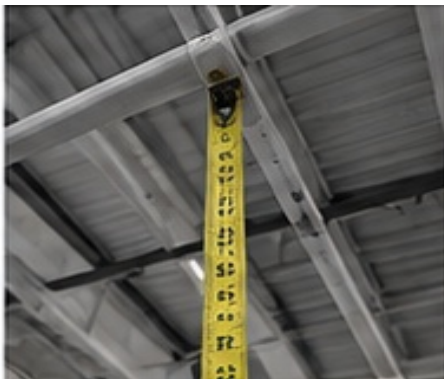

VISIBLE SITE CONDITIONS

Space	Occupied retail space
Access	Sales floor and back room areas visited
Ceiling type	Open deck in sales floor; GWB in back room
Representative	Juan J. Peña / GroundReps

SELECTED SITE PHOTOS

01. Sales floor - general view

02. Ceiling height - reference photo

03. Back room - electrical panel

FIELD REPORT

Field Verification & Measurements

GR-2026-042 | SAMPLE | Page 2 of 2

PROJECT	CLIENT	LOCATION	VISIT DATE
Retail Store #4582	ABC Lighting Co.	Miami, FL	Sep 18, 2026

REQUESTED FIELD MEASUREMENTS

#	Description	Recorded dimension	Photo
1	Sales floor ceiling height (avg.)	14 ft 6 in	02
2	Beam-to-beam spacing	10 ft 0 in (varies ± 2 in)	04
3	Column to wall (west)	18 ft 4 in	05
4	Space recorded at panel	36 in W $\times$ 78 in H	03
5	Entry ceiling height	13 ft 8 in	06
6	Back room height	12 ft 0 in	07
7	Requested fixture mounting height	14 ft 0 in (client input)	08*
8	Panel to first fixture reference	42 ft 6 in (approx.)	09*

* References 08-09 are listed in the supplied example; images are not included in this sample. Dimensions are illustrative field data, not technical verification.

PHOTO REFERENCES & ANNOTATED DIMENSIONS

 10 ft 0 in	 18 ft 4 in	 13 ft 8 in	 12 ft 0 in
04. Beam spacing	05. Column to wall	06. Entry ceiling	07. Back room

ITEMS FOR CLIENT REVIEW

1. Beam spacing in the back area varies by approximately ± 2 inches in this example. Review dimensions against the client scope.
2. Existing conduit routing may affect the planned fixture layout. The client and its qualified project team must determine any required action.

FIELD NOTES: Final fixture locations remain to be confirmed by the client. Panel dimensions record visible space only; they do not establish required clearance or compliance.
